

# ICGDA2023

2023 Sixth International Conference on  
Geoinformatics and Data Analysis

Marseille, France || April 13-15, 2023

Bienvenue à Marseille

## BACKGROUND

ICGDA2023 is Co-sponsored by Ecole Centrale de Marseille, Aix Marseille Université, France, and Palacky University, Czech Republic. The theme for the conference is "Geoinformatics and Data Analysis". Conference consists of keynote lectures, oral presentations, poster presentation, online presentation on all aspects of Geoinformatics and Data Analysis.

## PUBLICATION

All registered and presented papers will be published in **ICGDA2023 conference proceedings**, which will be submitted to indexing in **EI Compendex, Scopus**, etc.

## PAST ICGDA

### ICGDA2020 PROCEEDINGS:

ISBN: 978-1-4503-7741-6

## SUBMISSION

1. Online submission system:

<http://www.easychair.org/conferences/?conf=icgda2023>

- Template in Word downloaded here:

[Template Download](#)

- Template in Latex can be requested via email: [icgda@chairmen.org](mailto:icgda@chairmen.org).

**If you have any queries, please contact us at [icgda@chairmen.org](mailto:icgda@chairmen.org)**

More detail about submission, please visit at <http://www.icgda.org/sub.html>

## IMPORTANT DATES

Deadline for Paper Submission

**Nov. 5, 2022**

Notification of Acceptance

**Dec. 5, 2022**

Deadline for Registration

**Dec. 20, 2022**

## CONTACT

Conference Secretary: Ms. Haliee Chen

E-mail: [icgda@chairmen.org](mailto:icgda@chairmen.org)

Tel: +86-18081079313

(Monday-Friday: 10:00-17:30)

## CALL FOR PAPERS

- ♠ Acquisition and processing of remotely sensed data
- ♠ Analysis-oriented and standards-compliant WebGIS
- ♠ Applications of BeiDou navigation satellite system
- ♠ Geospatial cloud computing
- ♠ Geospatial computation and simulation
- ♠ Geospatial data sharing and interoperability
- ♠ New trends of technologies and research in GIS
- ♠ Processing and application of high-resolution imagery
- ♠ Representation and visualization of geospatial data
- ♠ Semantic web and sensor web
- ♠ Smart city and sustainable development
- ♠ Spatiotemporal dynamic analysis and simulation
- ♠ Surveying and mapping in geosciences
- ♠ Theories and algorithms in GIS
- ♠ Urban GIS and its applications
- ♠ Wireless and mobile GIS solutions

More topics available: <http://www.icgda.org/cfp.html>
